WOMAN FIGHTS A I EOPARD. Al out fifty persons who happened to be near the cage in which the animals of the Hagenbeck show now exhibiting at the National Export Exposition in Philadelphia, are kept, on Wednesday saw a fight between Mile. Morelli, a trainer of leopards, and one of her charges. The fight lasted about tan minutes and as a result the young woman is in the University Hospital with her chest torn and a piece bitten out of her left arm. The leopard which attacked her was pierced several times with the times of a pitchfork and it is probable that he will die.

The show got in late Saturday night, and the cages of the animals were not ready, so they had to be kept in the traveling cages, which are very small. On Monday some of the animals were transferred, but the leopards' cages were not ready and so they were allowed to stay out in the small boxes. Tuesnight there was a severe storm and these animals were exposed to it. This made their temper bad Wednesday morning, but the manager determined to have the first show of the week that afternoon and a rehearsal was ordered. The leopards were transferred to large

Mile. Morelli opened the door of the cage in which the big leopard Rapier stood snarling. She was clad in a French blouse of deep red and tights of the same hue. In her right hand she had a whip and in the left, which she kept behind her back, was a revolver, for she anticipated trouble with the leopard and was prepared to subdue him. As she entered Rapier lowered his head and, showing his teeth, slunk into the far corner. The young woman went near him and spoke. The only these tablets during the epi-demic of yellow fever last fall out further words she raised the whip One physician says: "Helantha will surfied quining and it is the only drug every series THAT ADDS TO THE NATURAL ACCESS OF THE MADY." Another physician says that will immediately she is "A drug that will immediately she and brought it down on the back of to the other side of the cage. The trainer again gave an order, but he refused to move and she struck him with the whip In an instant, and without giving warning, the leopard leaped into the air and landed on her shoulders, his left forepaw sinking into her che and tearing off the clothing. So quick had been the spring that she was unable to bring the revolver into use, and when he struck her the weapon was

hurled to the other side of the cage.

Reversing the whip Mlle. Morelli beat the animal on the head until he loosened his grip and sunk to the floor. Guards had been trying to get in to her assistance, but the door was locked and nothing could be done. One of them had secured a three-pronged fork, which he passed through the bars, and es the animal fell the trainer backed toward this and raised it just as he was about to spring for the second time. He leaped and landed on the prongs which ran deep into his breast. He fell and ran, but the woman followed him striking him at every step with the sharp points. Not until be was exhausted did she stop prodding him. She then walked to the door, opened it from the inside, and fell into the arms of a guard. Her left arm was helpless and her chest was terribly lacerated. A year ago in Omaha Mlle. Morelli was attacked and her chest lacerated by a

MONSTER WARSHIP LAUNCHED .-The British battle-ship London was launched saccessfully at Portsmuth, England, yesterday in the presence of large crowds of people. Her displace-ment is 15,000 tons. The main feature of her construction is the armor belt, which is carried the entire length of the ship, as advocated by Capt. Robley D Evans, U.S. N., in articles against soft-ended battle-ships, such as the Iowa. The London was laid down at Portsmouth December 7, 1898. She is a first-class battle-ship. Her length is 400 feet, her beam is 75 feet, and her draught is 26 feet 9 inches. She has an indicated horse-power of 15,000. Her cost is estimated at about \$5,000,000. Her armament will consist of four twelve-inch guns, twelve six-inch quick-firing guns, eighteen two-pound ers, twelve three-pounders, and eight smaller rapid-fire guns. She is supplied with two torpedo-tubes. Her compli-ment will be 755 men.

Address, DR. J. C. AYER, Lowell, Mass.

Mrs. Michael Curtin, Plainfield, Ill., makes the statement that she caught cold which settled on her lungs; she was treated for a month by her family physician, but grew worse. He told her she was a hopeless victim of consumption and that no medicine could cure her. Her druggist suggested Dr. King's New Discovery for Consumption; she bought a bottle and to her delight found herself benefitted from first dose. She continued its use and, after taking six bottles, found herself sound and well; now does her own housework, and is as well as she ever was .- Free trial bottles of this Great Discovery at E. S. Washington, D. C.
I believe it is possible to build up a much larger tailoring business in Alexendria than has ever existed here. I believe also that while PRICES is a factor, the first and most important thing is THOROUGHLY GOOD WORK. In other words while men want low prices they also demand good cloth and well cur, and well made garments. I have bought both here and in Europe a bigger stock of high grade cloths than usual, and at advantageous prices, I have the best workmen that money can hire, and I'm atterding right to business myself as I have been there twelve years. I have carefully counted the cost of everything; I have figured no, how much such work should bring, but how little I can do it for, and I'm going to make the price \$20 PER SUIT, and Robert T.
